

Atahualpa Montivero

Bachelor's Degree in Computer Science

Bachelor's degree holder in Computer Science with experience in web development, data analysis, and academic software projects. Proficient in technologies such as Java, Python, React, MySQL, and Git. Interested in backend, full-stack, data science, and artificial intelligence roles, with a particular focus on large language models (LLMs), natural language processing (NLP), and chatbot development. I also have a strong interest in desktop application development and video game development.
